Loop Aerospace  
Attn: Mr. Chris Handley  
21618 Golden Triangle Road, #106  
Santa Clarita, California 91350

Dear Mr. Handley:

Subject: Request for Parts Manufacturer Approval (PMA)  
Article Number: 32UM781-01, Project Number: PM16634LA-T

This is in response to your letter dated September 8, 2016, requesting PMA for the rod end bearing, article number 32UM781-01.

We reviewed the drawing(s) and data submitted and find they meet the requirements of Title 14 CFR § 21.311. Also we concur with your determination that supplemental instructions for continued airworthiness (ICA) are not required for this part. We have sent your application to the Federal Aviation Administration, Van Nuys Manufacturing Inspection District Office (MIDO), 7120 Hayvenhurst Avenue, Suite 100, Van Nuys, California 91406. The MIDO will grant production approval after validating your quality system. The FAA-PMA letter and the PMA supplement from the MIDO will document and set the scope of your approval.

Sincerely,

Gregory S. DiLibero  
Manager, Airframe Branch
